

## **Architectural Technologist (1 position)**

**Position Type:** Regular/ Full-Time

**Salary Range:** \$50,000 – \$60,000

### **THE COMPANY**

Precision Engineering has been in business since 2011 starting with 1 employee and now has grown to 14 employees. We have a fully licensed and insured structural engineering office which offers the most advanced tools of the engineering trade. We have a highly educated staff of professionals who are extremely adept at both the technical skills necessary to solve the most advanced structural engineering challenges. We have a very low turnover rate when it comes to our employees and we are very proud of that. We strive to attract top talent for long term success within the company.

### **THE POSITION: WHAT TO EXPECT**

You will get your own office, along with a flexible schedule to balance work and life. You can expect to get paid a salary between \$50,000 to \$60,000 a year and will also receive extended health and dental benefits, 2 weeks paid vacation, life insurance and long-term disability. You can expect to work on things like urban planning, drafting using Auto CAD and Revit and drawing site plans as well as the chance to work with a variety of people in the office and outside the office.

You will be working in the quaint village of Cobble Hill with a few shops including, a pub automotive shop and corner store. What more could you need! Only a short commute from Duncan and about 45 minutes from Victoria.

For more information about our growing organization, go to: <http://precisionengineeringltd.ca/>
